Stuffing

Overview

In this unit, children decide upon a simple shape on which to base their stuffed toys and record the materials that they will use to create it. Pupils are introduced to and practise blanket stitch and will add any extra items, appendages and decorative stitches before assembling their stuffed toys. Using a blanket stitch, children stuff and sew their toys to complete them.

Key Points of Learning (RAG at end of each session)

- To design a stuffed toy
- To make a paper template and know how to ensure that the template is proportional
- To thread a needle and use a blanket stitch to join two pieces of fabric
- To use appliqué to attach pieces of fabric decoration and stitches to decorate the fabric
- To carefully stuff a toy, repairing any holes or gaps
- To evaluate a stuffed toy

Did you know...

The teddy bear was invented in honour of Theodore Roosevelt in November 1902.
