

Art: Painting and mixed media

Overview

Children will develop skills in colour mixing, focussing on using tints and shades to create a 3D effect. They will experiment with composition and apply painting techniques to a personal still life piece.

Key Points of Learning	RAG	BGS
To investigate different ways of applying paint.		
To use tints and shades to give a three-dimensional effect when painting.		
To explore how paint can create different effects		
To consider proportion and composition when planning a still-life painting.		
To apply knowledge of colour mixing and painting techniques to create a finished piece.
